

# ST. VALENTINE

(versione in inglese di San Valentino)

Testo: Toy Falchi Musica: Francesca Traverso Tardy

Good day, my love, good day  
I feel so good and fine  
my heart is full of joy  
it is St. Valentine

The years have past and gone  
since that first day we met  
when real life has begun  
and nothing has changed yet

The table I have set  
with caviar, love and wine  
to celebrate with you  
a special Valentine...

St. Valentine has come  
not only for a day  
much longer it will last  
in our hearts will stay

You know, my love, you know  
for me there is only you  
even if hair has gone grey  
and sky is not always blue  
You make me feel I can  
face every thing that life may bring  
with you beside me  
it is an endless spring

Good night, my love, good night  
St. Valentine has gone  
but our love will stay  
for ever and a day  
you hug me in your arms  
I feel secure and calm  
and silently I cry  
of happiness

You know, my love, you know  
for me there is only you  
even if hair has gone gray  
and sky is not always blue  
You make me feel I can  
face every thing that life may bring  
with you beside me  
it is an endless spring

.....

.....

You make me feel I can  
face every thing that life may bring  
with you beside me  
it is an endless spring
